CLUBS WE HAVE HAD THE PRIVILEGE OF SPONSORING OVER THE YEARS

Con grande passione da oltre 40 anni progettiamo e realizziamo abbigliamento sportivo personalizzato, una gamma di alta qualità in grado di soddisfare tutte le esigenze dei nostri clienti.

In questa ottica, da qualche anno ci siamo specializzati nella stampa digitale, dove riusciamo a produrre tutti i modelli, disegni e colori che i nostri clienti ci chiedono nelle maglie e tute per tutti gli sport.

La sublimazione tessile è un processo utilizzato per la stampa su tessuti ed è particolarmente indicato per la stampa di abbigliamento tecnico sportivo. Per il processo di sublimazione vengono utilizzati fogli di carta transfer speciali che vengono stampati con inchiostri a sublimazione. Con questa tecnica possiamo offrire un prodotto di qualità con i seguenti vantaggi:

- Grafica personalizzata illimitata
- Stampe perfettamente dettagliate
- Elevata traspirazione tessile che non risente del processo di trasferimento del colore
- Stampe resistenti e facili da lavare senza perdita di colore

I prezzi delle maglie e dei pantaloncini includono tutte le stampe degli sponsor, i numeri, lo stemma o il logo della squadra, i nomi dei giocatori e tutto il necessario per la stampa.

I modelli che si possono vedere nelle pagine seguenti possono essere realizzati in qualsiasi variante di colore (anche se non presente a catalogo). Allo stesso modo possiamo realizzare modelli "su misura" con grafiche e colori non presenti a catalogo. Tutte le linee sublimate digitalmente possono essere personalizzate.

With great passion for over 40 years we have been designing and manufacturing customized sportswear, a high quality range able to satisfy all the needs of our customers.

With this in mind, for some years we have specialized in digital printing, where we are able to produce all the models, designs and colors that our customers ask us for in jerseys and tracksuits for all sports.

Textile sublimation is a process used for printing on fabrics and is particularly suitable for printing technical sports clothing. Special transfer paper sheets are used for the sublimation process which are printed with sublimation inks. With this technique we can offer a quality product with the following advantages:

- Limitless personalised graphics
- Perfectly detailed prints
- High textile perspiration which is not affected by the colour transfer process
- Resistant prints and easy washing without loss of colour

The prices of jerseys and shorts include all sponsor prints, numbers, team badge or logo, names of players and everything you need to print.

The models that can be seen in the following pages can be made in any colour variation (even if not present in the catalogue). In the same way we can create bespoke models with graphics and colours not included in the catalogue. All digitally sublimated strips can be personalised.
